

Letter Formation Practice Worksheet

Materials Needed:

Letter tracing worksheet – with h, n, m, r, p in random order

Different colored markers or colored pencils

Prepwork:

Create letter worksheet and photocopy with instructions to: color m's blue, p's red, h's green, as examples. The reverse side of the worksheet should be blank lined paper with a dashed middle line and a space between writing lines.

Task:

Each student receives a worksheet.

The instructor asks students to trace each letter using different colors.

The instructor emphasizes how the letters start at the top and then dive to the line.

Student practices the letters on the back of the sheet, with the instructor monitoring formation.

Student Goals:

Follow multi-step directions

Learn and practice letter formation for letters formed using similar stroke sequence
